DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance: based on applicant arguments that the vehicle motion control subsystem, the at least one actuator control subsystem and the plurality of coordinator subsystems in columns are capable of performing some function. Instead, the use of the term "capabilities" refers to the information outputted or used to calculate signals. Applicants submit that in the present application the terms "coordinator capabilities" and "actuator capabilities" relate to information that is utilized by the vehicle motion control subsystem and the at least one coordinator subsystem to calculate a coordinator demand signal and an actuator demand signal, respectfully. The Sigl:'735 patent does not disclose any element that outputs capabilities of the element or that calculates any signals determined according to the capabilities of any element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Olga Hernandez whose telephone number is (703) 305-0918. The examiner can normally be reached on Monday through Friday from 8:30 am to 5:00 pm.
